

## Menhaden PLC

Information as at 30 April 2019

[www.menhaden.com](http://www.menhaden.com)

### Investment Objective

Menhaden PLC (the "Company") seeks to generate long-term shareholder returns, predominantly in the form of capital growth, by investing in businesses and opportunities, irrespective of their size, location or stage of development, delivering or benefiting from the efficient use of energy and resources. Whilst the intention is to pursue an active, non-benchmarked total return strategy, the Company will be cognisant of the positioning of its portfolio against the MSCI World Index (Total Return, Sterling adjusted).

### 10 Largest Holdings at 30 April 2019 (% of total assets)

Name	Total
X-ELIO *	18.9

### Commentary

During April, the Company's net asset value ('NAV') per share was up 1.1%, the share price was up 8.8%, while the MSCI World Index (total return, sterling adjusted) was up 3.5%.

The most significant contributor during the month was **Safran**, which gained 6.2% following the announcement of results which were once again well ahead of expectations, adding 0.6% to our total NAV. Meanwhile Safran's major customer **Airbus** gained 11.5%, adding 0.5% to our NAV. We have had a great run in Airbus, and decided during April to crystallise some of those gains, reducing the position by just over half to 5.2% of our NAV.

We used the proceeds of that sale to initiate a position in US cable business **Charter**, amounting to 5.9% of our NAV, where we see a materially higher upside with lower associated risk than with Airbus. We view Charter's hybrid fibre coax network, which encompasses 50 million households in the US, as a key piece of infrastructure for enabling the development of the 'internet of things' (IoT). The IoT is already transforming the way resources are produced, distributed and consumed, and has the potential to drive significant energy efficiency savings, with McKinsey previously estimating these could be worth \$540 billion across residential and commercial buildings. We believe that Charter can deliver meaningfully higher free cash flow in the years ahead based upon a combination of modest revenue growth, falling capital intensity and lower customer churn.

We also initiated a position in **Microsoft**, amounting to 2% of our NAV. Microsoft is at the forefront of putting the growth of data (and data centres) on a sustainable footing with its Azure Cloud services being up to 93% more energy efficient than traditional enterprise datacentres. We believe that Microsoft benefits from immense economies of scale, high switching costs and established enterprise sales relationships which should underpin Azure's rapid growth trajectory, whilst we think Office 365 should continue to profit from entrenched network effects and the benefits associated with cloud-based subscriptions compared to traditional licenses.

Our North American railroad positions, **Canadian Pacific** and **Union Pacific**, gained 8.7% and 5.8% respectively, adding a combined 0.7% to our NAV.

Our new position in Berlin real estate developer, **ADO**, in which we are co-invested alongside Apollo, declined in value (on a mark-to-market basis) by -11%, which cost us -1.2% of NAV. This has partly been caused by the ongoing protests against rent increases in Berlin, which have dented the valuations of all of the Berlin and Germany-exposed REITs. We believe the investment thesis remains solid but we continue, alongside Apollo, to monitor events closely.

### Risk Warnings

This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser.

Any return you receive depends on future market performance and is uncertain. The Company does not seek any protection from future market performance so you could lose some or all of your investment. Shares of the Company are bought and sold on the London Stock Exchange. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it. For further information on the principal risks the Company is exposed to please refer to the Company's Annual Report or Investor Disclosure Document available at [www.menhaden.com](http://www.menhaden.com).

The Company currently deploys leverage using currency forwards. These are designed to partially protect/hedge the NAV from unfavourable movements in foreign exchange rates by reducing the Company's exposure to foreign currencies. The Company can borrow but does not currently.

### Portfolio Manager Profile

Portfolio management services are provided by Menhaden Capital Management LLP ('Menhaden'). Three of the partners of Menhaden, Ben Goldsmith, Luciano Suana and Graham Thomas, form the Investment Committee, which makes all investment and divestment decisions in respect of the Company. Their investment philosophy is to assess all investment opportunities through a value lens, with the aim of acquiring investments with low downside risk, backed by identifiable assets and cash flows, at attractive valuations. The team seeks to invest with a long-term perspective and with high conviction. Menhaden is authorised and regulated by the Financial Conduct Authority.

### Biographies

**Graham Thomas** is the non-executive chairman of the Investment Committee. Graham is the Chief Executive of Stage Capital, a private equity firm backed by Goldman Sachs Asset Management and Glendower Capital. Before Stage Capital, he chaired RIT Capital Partners plc's Executive Committee and was a member of its investment committee with responsibility for its private investments. Previously he held senior roles at Standard Bank Group, and was a partner at MidOcean Partners, having started his career at Goldman Sachs in London. Graham also serves on the investment committee of Apis Partners.

**Ben Goldsmith** is the Chief Executive Officer of Menhaden. Before co-founding Menhaden, Ben co-founded the WHEB group, one of Europe's leading energy and resource-focused fund investment businesses. Ben is a director of Cavamont Holdings, the Goldsmith family's investment holding vehicle and also chairs the UK Conservative Environment Network.

**Luciano Suana** is an investment manager at Menhaden. Before joining Menhaden, Luciano was a Director for Barclays Capital in the Capital Markets division where he ran the credit trading operations for Brazil out of São Paulo. Before Barclays, Luciano was a Director at Dresdner Kleinwort in London. There he focused mainly on Infrastructure, Utilities and Real Estate assets as head of the Illiquids Credit group.

**Jessica Kaur** is a Research Analyst at Menhaden. Before joining Menhaden, Jessica was an Associate Director at UBS in the Research division, where she was a covering analyst in the UK Mid-cap team. Before UBS, Jessica was a Research Analyst in the Capital Goods team at Goldman Sachs.

**Edward Pybus** is a Research Analyst at Menhaden. Before joining Menhaden, Edward was an Analyst at Exane BNP Paribas in the Research division, where he was a member of the Oil & Gas team and covered European integrated oil companies. Edward is a CFA Charterholder and qualified as a Chartered Accountant at Deloitte.

### Investment Policy

The Company's investment objective is pursued through constructing a conviction-driven portfolio consisting primarily of direct listed and unlisted holdings across different asset classes and geographies. The Company invests, either directly or through external funds, in a portfolio that is comprised of three main allocations: listed equity; yield assets; and special situations. The flexibility to invest across asset classes affords the Company two main benefits: 1) It enables construction of a portfolio based on an assessment of market cycles; and 2) It enables investment in all opportunities which benefit from the investment theme. It is expected the portfolio will comprise approximately 20 to 25 positions. Typically, the portfolio will not comprise fewer than 20 positions or more than 50 positions. For these purposes, an investment in an external fund is treated as one position.

The portfolio will be predominantly focused on investments in developed markets, though if opportunities that present an attractive risk and reward profile are available in emerging markets then these may also be pursued. While many of the companies forming the portfolio are headquartered in the UK, USA or Europe, it should be noted that many of those companies are global in nature so their reporting currency may not reflect their actual geographic or currency exposures. Subject at all times to any applicable investment restrictions contained in the Listing Rules, the Company will not make an investment if it would cause a breach of any of the following limits at the point of investment: 1) no more than 20% of the Company's gross assets may be invested, directly or indirectly through external funds, in the securities of any single entity; and, 2) no more than 20% of the Company's gross assets may be invested in a single external fund.

Menhaden PLC conducts its affairs so that its shares can be recommended by independent financial advisers ("IFAs") to retail private investors. The shares are excluded from the Financial Conduct Authority's ("FCA's") restrictions which apply to non-mainstream investment products because they are shares in a UK-listed investment trust.

### Asset Allocation Breakdown as at 30 April 2019 (%)

Asset	Total
Public equities	51.1
Private investments	36.3

### Important Information

Menhaden PLC (the Company) is a public limited company whose shares are premium listed on the London Stock Exchange (LSE) and is registered with HMRC as an investment trust.

The Company has an indeterminate life although shareholders consider and vote on the continuation of the Company every five years (the next such vote will be held in 2020).

The Company may, but does not currently, borrow to purchase investments. Borrowing could potentially magnify any gains or losses made by the Company.
