

Menhaden PLC

Information as at 29 February 2020

www.menhaden.com

Investment Objective

Menhaden PLC (the "Company") seeks to generate long-term shareholder returns, predominantly in the form of capital growth, by investing in businesses and opportunities, delivering or benefiting from the efficient use of energy and resources irrespective of their size, location or stage of development. Whilst the intention is to pursue an active, non-benchmarked total return strategy, the Company will be cognisant of the positioning of its portfolio against the MSCI World Index (Total Return, Sterling adjusted).

10 Largest Holdings at 29 February 2020 (% of total assets)

Name	Total
Charter Communications	15.9
Alphabet	15.1

Calisen Group **	5.5
Canadian National Railway	4.7
Airbus	4.1
Ocean Wilsons	3.3
Microsoft	2.2
Total	78.6

*investment made through Helios Co-Invest LP

**investment made through KKR Evergreen Co-Invest II LP

Commentary

During February, the Company's net asset value ('NAV') per share was down 4.8%, the share price was down 7.5%, while the MSCI World Index (total return, sterling adjusted) was down 5.5%.

Our public equities were negatively impacted by the strong market sell-off driven by fears around the spread of the coronavirus, costing us 4.1% of our total NAV. Aerospace companies were amongst those to suffer the most, with our **Airbus** and **Safran** holdings falling 17% and 13%, costing us 0.8% and 1.3% of NAV respectively. Although arguably less directly exposed, **Ocean Wilsons** also fell 16%, costing us 0.6% of our NAV.

KKR completed an initial public offering for **Calisen Group** (formerly known as **Calvin Capital**) on 7 February with a market capitalisation of approximately £1.3 billion. This remains a private holding for us, given our investment held via a KKR-controlled holding entity. The position has been revalued in line with the month end share price, recognising a £1.0 million gain, which added 1.0% to our NAV.

The discount at which we hold our interest in the **WCP Growth Fund** was increased. We will now hold this position at a 50% discount to the valuation provided by the manager, up from 25% previously. This decision reduced our total NAV by 0.5%.

Whilst marking to market for this correction is painful, we note that our portfolio outperformed its benchmark. Even our listed equities on a standalone basis only suffered approximately 80% of the loss of the market (MSCI World) from its peak on the 19th February to the month end. Our aim remains to identify business models which are aligned to our resource efficiency mandate, which benefit from resilient barriers to entry and which can therefore deliver sustainable risk/adjusted returns. We will continue to update our expectations for the future performance of our holdings, with a view to deploying capital as appropriate.

Risk Warnings

This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser.

Any return you receive depends on future market performance and is uncertain. The Company does not seek any protection from future market performance so you could lose some or all of your investment. Shares of the Company are bought and sold on the London Stock Exchange. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it. For further information on the principal risks the Company is exposed to please refer to the Company's Annual Report or Investor Disclosure Document available at www.menhaden.com.

The Company currently deploys leverage using currency forwards. These are designed to partially protect/hedge the NAV from unfavourable movements in foreign exchange rates by reducing the Company's exposure to foreign currencies. The Company can borrow but does not currently.

Portfolio Manager Profile

Portfolio management services are provided by Menhaden Capital Management LLP ('MCM'). Three of the partners of MCM, Ben Goldsmith, Luciano Suana and Graham Thomas, form the Investment Committee, which makes all investment and divestment decisions in respect of the Company. Their investment philosophy is to assess all investment opportunities through a value lens, with the aim of acquiring investments with low downside risk, backed by identifiable assets and cash flows, at attractive valuations. The team seeks to invest with a long-term perspective and with high conviction. MCM is authorised and regulated by the Financial Conduct Authority.

Biographies

Graham Thomas is the non-executive chairman of MCM's Investment Committee. Graham is the Chief Executive of Stage Capital, a private equity firm backed by Goldman Sachs Asset Management and Glendower Capital. Before Stage Capital, he chaired RIT Capital Partners plc's Executive Committee and was a member of its investment committee with responsibility for its private investments. Previously he held senior roles at Standard Bank Group, and was a partner at MidOcean Partners, having started his career at Goldman Sachs in London. Graham also serves on the investment committee of Apis Partners.

Ben Goldsmith is the Chief Executive Officer of MCM. Before co-founding MCM, Ben co-founded the WHEB group, one of Europe's leading energy and resource-focused fund investment businesses. Ben is a director of Cavamont Holdings, the Goldsmith family's investment holding vehicle and also chairs the UK Conservative Environment Network.

Luciano Suana is an investment manager at MCM. Before joining MCM, Luciano was a Director at Barclays Capital in the Capital Markets division where he ran the credit trading operations for Brazil out of São Paulo. Before Barclays, Luciano was a Director at Dresdner Kleinwort in London. There he focused mainly on Infrastructure, Utilities and Real Estate assets as head of the Illiquids Credit group.

Edward Pybus is a Research Analyst at MCM. Before joining MCM, Edward was an analyst at Exane BNP Paribas in the Research division, where he was a member of the Oil & Gas team and covered European integrated oil companies. Edward is a CFA Charterholder and qualified as a Chartered Accountant at Deloitte.

Investment Policy

The Company's investment objective is pursued through constructing a conviction-driven portfolio consisting primarily of direct listed and unlisted holdings across different asset classes and geographies. The Company invests, either directly or through external funds, in a portfolio that is comprised of three main allocations: listed equity; yield assets; and special situations. The flexibility to invest across asset classes affords the Company two main benefits: 1) It enables construction of a portfolio based on an assessment of market cycles; and 2) It enables investment in all opportunities which benefit from the investment theme. It is expected the portfolio will comprise approximately 15 to 30 positions.

The portfolio will be predominantly focused on investments in developed markets, though if opportunities that present an attractive risk and reward profile are available in emerging markets then these may also be pursued. While many of the companies forming the portfolio are headquartered in the UK, USA or Europe, it should be noted that many of those companies are global in nature so their reporting currency may not reflect their actual geographic or currency exposures. Subject to any applicable investment restrictions contained in the Listing Rules from time to time, the Company will not make an investment if it would cause a breach of any of the following limits at the point of investment: 1) no more than 20% of the Company's gross assets may be invested, directly or indirectly through external funds, in the securities of any single entity; and, 2) no more than 20% of the Company's gross assets may be invested in a single external fund.

Menhaden PLC conducts its affairs so that its shares can be recommended by independent financial advisers ("IFAs") to retail private investors. The shares are excluded from the Financial Conduct Authority's ("FCA's") restrictions which apply to non-mainstream investment products because they are shares in a UK-listed investment trust.

Important Information

Menhaden PLC (the Company) is a public limited company whose shares are premium listed on the London Stock Exchange (LSE) and is registered with HMRC as an investment trust.

The Company has an indeterminate life although shareholders consider and vote on the continuation of the Company every five years (the next such vote will be held in 2020).

The Company may, but does not currently, borrow to purchase investments. Borrowing could potentially magnify any gains or losses made by the Company.
