

## Menhaden Capital PLC

Information as at 30 November 2018

[www.menhaden.com](http://www.menhaden.com)

### Investment Objective

Menhaden Capital PLC (the "Company") seeks to generate long-term shareholder returns, predominantly in the form of capital growth, by investing in businesses and opportunities, irrespective of their size, location or stage of development, delivering or benefiting from the efficient use of energy and resources. Whilst the intention is to pursue an active, non-benchmarked total return strategy, the Company will be cognisant of the positioning of its portfolio against the MSCI World Index (Total Return, Sterling adjusted).

### Commentary

During November, the Company's net asset value ('NAV') per share was up 0.8%, the share price was down 7.4%, while the MSCI World Index (total return, sterling adjusted) was up 1.3%.

The biggest contributor during the month was **Ocean Wilson**, which gained 9.6%, adding 0.3% to our NAV, partly reflecting a positive market reaction to the election of Jair Bolsonaro as President of Brazil. Ocean Wilson's principal asset is a significant stake in Brazilian ports operator Wilson Sons, which reported results largely in line with expectations for Q3. Solid volume growth at the group's container terminals was offset by a higher average USD/BRL FX rate, whilst intense competition continues to weigh on the group's towage operations. Also, Wilson Sons commenced preparations for a large quay extension at Tecon Salvador, one of its two container ports.

**Brookfield Renewable Energy Partners (BEP)** up by 7.1%, adding 0.3% to our NAV, recovering following a negative reaction to the Company's reported results for Q3, which came in marginally beneath forecasts due to poor hydroelectric power generation in North America. Our reasons for holding BEP are unchanged. This is a high quality infrastructure operator and capital allocator with a conservative balance sheet. BEP should be capable of continuing to produce its annual target return of 12-15% with the lowest relative associated risk amongst the peer group.

**Alphabet** gained 2.6%, adding 0.2% to our NAV, and North American railroads operator **Union Pacific** gained 5.9%, adding 0.2% to our NAV.

The only two material detractors in the portfolio were **Safran** and **Airbus**, both sliding by -3.1%, largely on account of the ongoing "Trump trade war", costing us -0.6% of our NAV in aggregate.

We received a dividend of £142,000 from our holding in private energy metering business **Calvin Capital**. Whilst both of our private co-investments with KKR's infrastructure team have a growth story, they each own and operate cash generative infrastructure assets, and this dividend therefore provides reassurance on that thesis, as well as on the quality of Calvin itself.

### Risk Warnings

This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser.

Any return you receive depends on future market performance and is uncertain. The Company does not seek any protection from future market performance so you could lose some or all of your investment. Shares of the Company are bought and sold on the London Stock Exchange. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it. For further information on the principal risks the Company is exposed to please refer to the Company's Annual Report or Investor Disclosure Document available at [www.menhaden.com](http://www.menhaden.com).

The Company, currently, deploys leverage using currency forwards. These are designed to, partially, protect/hedge the NAV from unfavourable movements in foreign exchange rates by reducing the Company's exposure to foreign currencies. The Company can borrow but does not currently.

### Portfolio Manager Profile

Portfolio management services are provided by Menhaden Capital Management LLP ('Menhaden'). Three of the partners of Menhaden, Ben Goldsmith, Luciano Suana and Graham Thomas, form the Investment Committee, which makes all investment and divestment decisions in respect of the Company. Their investment philosophy is to assess all investment opportunities through a value lens, with the aim of acquiring investments with low downside risk, backed by identifiable assets and cash flows, at attractive valuations. The team seeks to invest with a long-term perspective and with high conviction. Menhaden is authorised and regulated by the Financial Conduct Authority.

### Biographies

**Graham Thomas** is the non-executive chairman of the Investment Committee. Graham is the Chief Executive of Stage Capital, a private equity firm backed by Goldman Sachs Asset Management and Glendower Capital. Before Stage Capital, he chaired RIT Capital Partners plc's Executive Committee and was a member of its investment committee with responsibility for its private investments. Previously he held senior roles at Standard Bank Group, and was a partner at MidOcean Partners, having started his career at Goldman Sachs in London. Graham also serves on the investment committee of Apis Partners.

**Ben Goldsmith** is the Chief Executive Officer of Menhaden. Before co-founding Menhaden, Ben co-founded the WHEB group, one of Europe's leading energy and resource-focused fund investment businesses. Ben is a director of Cavamont Holdings, the Goldsmith family's investment holding vehicle and also chairs the UK Conservative Environment Network.

**Luciano Suana** is an investment manager at Menhaden. Before joining Menhaden, Luciano was a Director for Barclays Capital in the Capital Markets division where he ran the credit trading operations for Brazil out of São Paulo. Before Barclays, Luciano was a Director at Dresdner Kleinwort in London. There he focused mainly on Infrastructure, Utilities and Real Estate assets as head of the Illiquids Credit group.

**Jessica Kaur** is a Research Analyst at Menhaden. Before joining Menhaden, Jessica was an Associate Director at UBS in the Research division, where she was a covering analyst in the UK Mid-cap team. Before UBS, Jessica was a Research Analyst in the Capital Goods team at Goldman Sachs.

**Edward Pybus** is a Research Analyst at Menhaden. Before joining Menhaden, Edward was an Analyst at Exane BNP Paribas in the Research division, where he was a member of the Oil & Gas team and covered European integrated oil companies. Edward is a CFA Charterholder and qualified as a Chartered Accountant at Deloitte.

### Investment Policy

The Company's investment objective is pursued through constructing a conviction-driven portfolio consisting primarily of direct listed and unlisted holdings across different asset classes and geographies. The Company invests, either directly or through external funds, in a portfolio that is comprised of three main allocations: listed equity; yield assets; and special situations. The flexibility to invest across asset classes affords the Company two main benefits: 1) It enables construction of a portfolio based on an assessment of market cycles; and 2) It enables investment in all opportunities which benefit from the investment theme. It is expected the portfolio will comprise approximately 20 to 25 positions. Typically, the portfolio will not comprise fewer than 20 positions or more than 50 positions. For these purposes, an investment in an external fund is treated as one position.

The portfolio will be predominantly focused on investments in developed markets, though if opportunities that present an attractive risk and reward profile are available in emerging markets then these may also be pursued. While many of the companies forming the portfolio are headquartered in the UK, USA or Europe, it should be noted that many of those companies are global in nature so their reporting currency may not reflect their actual geographic or currency exposures. Subject at all times to any applicable investment restrictions contained in the Listing Rules, the Company will not make an investment if it would cause a breach of any of the following limits at the point of investment: 1) no more than 20% of the Company's gross assets may be invested, directly or indirectly through external funds, in the securities of any single entity; and, 2) no more than 20% of the Company's gross assets may be invested in a single external fund.

Menhaden Capital PLC conducts its affairs so that its shares can be recommended by independent financial advisers ("IFAs") to retail private investors. The shares are excluded from the Financial Conduct Authority's ("FCA's") restrictions which apply to non-mainstream investment products because they are shares in a UK-listed investment trust.
